SUMMARY

Passionate junior front-end developer with a focus on creating visually appealing and user-friendly web apps. Proficient in HTML, CSS, JavaScript, and experienced in using React to build responsive and dynamic user interfaces. Skilled in building responsive, high-performance user interfaces using React, Redux, and other modern web technologies and seeking a position where I can apply my skills and collaborate with a team to create engaging and effective web experiences.

EXPERIENCE

Junior Frontend Developer (React)

Cypherox Technologies Pvt Ltd

02/2023 - Ongoing Rajkot

As a junior frontend developer, I have experience building and maintaining web applications using HTML, CSS, JavaScript and React.

I gained experience in using various front-end development tools such as Vite. I also learned about React best practices such as pure components, code splitting and lazy loading.

Here are my responsibilities :

- Writing clean, efficient, and maintainable code.
- Build prototype for property management system using React and MUI.
- I collaborated with the design team to ensure that the designs were accurately translated into functional user interfaces.

Web Designer (Intern)

Encircle Technologies Pvt Ltd

04/2022 - 11/2022 Rajkot

As a web designer intern, I have gained valuable experience through coursework and internships, where I learned to build dynamic, responsive user interfaces using the latest web development technologies.

During my internships, I focused on gaining proficiency in HTML, CSS, and JavaScript, as well as learning how to use modern front-end frameworks such as React.

Here are my responsibilities :

- Shadowed developers to learn key details about job duties and tasks.
- Developed custom user interfaces with modern JavaScript frameworks, and CSS frameworks like Tailwind CSS, HTML5, and CSS3.
- I created prototypes to help stakeholders visualize and understand the user interface design before it is fully developed.
- I implemented some basic GSAP animation on the website.
- I worked on a Gatsby site for a client in the travel industry. I was responsible for building the homepage, the destination listing page, and the booking form using React, Redux and Tailwind CSS.

EDUCATION

Bachelor of Computer Application

Saurashtra University

2019 - 2022 Rajkot

CGPA

8.44 / 10

SKILLS

Front End

React

Redux

Material UI

CSS3

Gatsby

ES6

GSAP

Bootstrap

Tailwind CSS

Figma to HTML

Tools

Git

NPM

BaseCamp

Postman

Netlify (For Deployment)

VS Code

TRAINING / COURSES

NamasteDev React Live

In this live course, I learned how to use React to create responsive, dynamic web applications that meet modern user expectations. Throughout the course, I worked on a hands-on project that gave me experience building a complete React application.
